AGENDA

- ① Problem
- ② Solution
- ③ Advantages
- ④ Target users
- ⑤ Features
- ⑥ Tools & Technologies

PROBLEM

Many people their cars break down and they don't have enough time to fix them, and other vehicles break down on the road when they travel where there is no mechanic nearby them , so we thought of a solution.

SOLUTION

We think that we can develop a web application that can help the user whose car is broken and serve him with a mechanic to repair his car at anytime , anywhere

ADVANTAGES

- Help anyone having a vehicle to fix any damage.
- Save time and effort for the client.
- We help unemployed mechanics to find a job.
- We help hired mechanics to increase their income.

TARGET USERS

- client
- Mechanic

FEATURES

- Home
- Services
- Mechanic
- Mechanic details
